

English with Single-Subject Matter Preparation

The major in English with single-subject matter preparation is designed to prepare students for careers teaching middle or secondary school English or language arts. The program is approved by the California Commission on Teacher Credentialing: students who complete this program, including the required portfolio, will not be required to take the California Subject Examination for Teachers (CSET) in English in order to receive their teaching credential. To fulfill the Single Subject Matter Preparation standards mandated by the State of California, the program requires additional study in certain areas beyond what is required by the regular major in English and the selection of concentration. In order to receive the equivalency letter, students must also submit a portfolio of work produced in program courses, the requirements of the portfolio are covered in ENG 300.
