Message from the Provost

September 2, 2008

Dear Colleagues,

Research plays a critical role in realizing our mission to deliver lifelong learning opportunities that are challenging and relevant. Research informs the curriculum and is often inspired by what occurs in the classroom.

I am pleased to announce the release of the 2007-2008 *National University Scholar – A Directory of Faculty Research, Scholarship, and Creative Activity*, which offers rich evidence of the vital work in which our faculty are engaged. We truly value the scholarly contributions of our colleagues and this publication enables the University community to share in the important work performed by our faculty. I wish to acknowledge the Research Council for their leadership and work on this important project.

This year 86 faculty members from each of the six academic schools recorded their scholarly work. There were over 405 entries submitted. The submissions have been organized into the following categories:

- I. Monographs and Books
- II. Book Chapters
- III. Periodicals/Journal Articles
- IV. Conference Presentation/Proceedings and Workshops
- V. Other Scholarly Activities (*which include art and literature*)

We collect scholarship data continuously throughout the year. This application will remain open so that work may be submitted at any time. You may access the directory by logging on to <http://216.98.159.192/extranet/scholarship/index.php>, Select “faculty scholarship directory”, input your e-mail address and your password. I encourage all faculty to submit their work for review.

Please join me in congratulating our colleagues on their fine work.

Sincerely,

Thomas M. Green, Ph.D.

Provost, National University

Acknowledgments

Many people have contributed to this year's publication of *The National University Scholar – A Directory of Faculty Research, Scholarship, and Creative Activity*. We wish to extend our appreciation to all who submitted entries and to acknowledge the efforts of the following individuals here.
