Message from the **Provost**

September 7, 2011

Dear Colleagues,

Research plays a critical role in ensuring that we deliver lifelong learning opportunities that are challenging and relevant to our diverse student population. Scholarship informs the curriculum and is often inspired by what occurs in the classroom. It puts action behind the concept of our work as teacher-scholar.

I am pleased to announce the release of the *2010-2011 National University Scholar – A Directory of Faculty Research, Scholarship and Creative Activities*, which offers rich evidence of the vital work in which our faculty are engaged. We truly value your scholarly contributions and this publication enables the University community to share in the important work performed by our faculty. I wish to acknowledge the Research Council for their leadership and work on this important project.

This year 71 faculty members from each of the six academic schools recorded their scholarly work. There were over 339 entries submitted. The submissions have been organized into the following categories:

- Monographs and Books
- Book Chapters
- Periodicals/Journal Articles
- Conference Presentation/Proceedings and Workshops
- Other Scholarly Activities, including art and literature

We collect scholarship data continuously throughout the year. This application will remain open so that work may be submitted at any time. You may access the directory by logging on to <http://nufast-01.nu.edu:8080/nuresearch>, select “faculty scholarship directory”, input your e-mail address and your password. And, it goes without saying that I encourage all faculty to submit their work for review.

Thank you for your continued scholarship efforts.

Sincerely,

Eileen D. Heveron, Ph.D.

Provost
